Back End: ADO.NET, SQL, SQL Server

Tools: Azure Data Studio, Visual Studio, Visual Studio Code, SSMS, Git Bash

Professional Skills: Troubleshooting, Critical Thinking, Communication, Project Management Fundamentals, Teamwork, Pair Programming, Creativity.

INDEPENDENT DEVELOPMENT PROJECTS

- **Personal Site:** Through the fusion of HTML, CSS, and JavaScript, I artfully constructed a personal webpage. This space not only showcases my full stack portfolio with finesse but also paints a vivid picture of my identity and capabilities.
 - **StoreFront:** Created a secure application for managing product data. Application is built to simulate an online store front with a shopping cart. Administrators have the ability to manage product, category and vendor data.
 - **Dungeon Application Game:** I introduced an exciting twist by allowing players to embody a fearsome beast in the console dungeon game I developed with C#, *Block Beasts*. I use fundamental C# skills to deliver an exciting console app experience.
-

TECHNICAL TRAINING

Full Stack Coding Program, Centriq Training
Kansas City, MO

Anticipated Graduation:
December 2023

- .NET Core MVC Framework
- Troubleshooting & Debugging
- Source Control
- Agile/Scrum (Created Team Project)
- Website Deployment
- Pair Programming
